Description:

On 22 June 2021 the Swiss-African Business Circle launched its 3rd edition of the Swiss-African Business Relations Status Quo Report, highlighting new facts and figures and using new analyses to shed further light on Swiss-African business relations. The Swiss National, IBM Plant Location International, Swiss-Federal Customs Administration, UNCTAD and KPMG Switzerland provided valuable data sets and insights for the realization of the report. The report prioritizes Swiss-African trade and investment data from 2020 over figures which are only captures up to 2019 due to the enormous impact of the global COVID-19 pandemic.

Thank you to the Partners of the Status Quo 2021 Report:
