

Experience working as an SABC virtual intern

The B360 Education Partnerships Virtual Internship program is about to end, and Swiss-African Business Circle will have to say their farewell to Letisia Petrus, who has been with SABC since February 2022. Letisia assisted the team on the communications tasks including but not limited to website Management, social media, and corporate communication tasks.

And she described the experience as a great learning curve. "I am thrilled to be learning more every day. This whole experience was exactly what I was looking for and more. I wanted to dip my toes in the water, feel out my strengths, weaknesses, and gain experience" Letisia.

SABC has been delighted to support the B360 internship over the last few years and wishes Letisia all the best as she moves forward.
